

SolidBoss Tires
Aperture Press-ons!

SolidBoss soft-riding 26.5-25 tire ready for work in auto recycling sludge pit.

SolidBoss aperture hole full-depth solids offer long wear and soft ride. SolidBoss aperture tires offer one of the lowest cost per hour averages of all of the major solid tire brands while providing a cushioning ride for man and machine. With SolidBoss you can rest assured that your company will be running the most cost-efficient tires available. SolidBoss is quickly becoming recognized by it's competitors as the "Gold Standard" in which to measure their performance, both in ride and durability. Try SolidBoss Tires the next time the need arises. You'll be glad you did!

Reinventing The Wheel

SolidBoss Expanded & Aperture Tires

SolidBoss now offers both traditional expanded wheel solid tires as well as our all new aperture design. The new aperture tires offer a ride that comes much closer to that of a pneumatic tire while being very cost-effective. SolidBoss currently offers its new aperture design in several sizes and is expanding its offering. SolidBoss Aperture Tires are great for that tough job on rough surfaces. Whether you choose Traditional or Aperture SolidBoss Tires you can rest assured your company will have the best compounds for your harsh environment.

SolidBoss wants the opportunity to show your company how it can provide a great ride, while eliminating ALL flat tire downtime.
